Hi Cathy,

I'm a Chemical Watch reporter covering today's NGO letter to Dr. Freedhoff regarding "Scientific Misconduct Issues in TSCA New Chemicals Program". What is the EPA's response to the groups' requests? Which of their recommended actions, if any, will the agency take? How else will the EPA further address the concerns raised by recent whistleblower complaints?

My deadline is 2:30 p.m. Eastern Time today.

Thanks,

Julia
